

**MareFrame, disseminated during the
2nd International Ocean Research Conference,
Barcelona, Spain
17-21 November 2014**

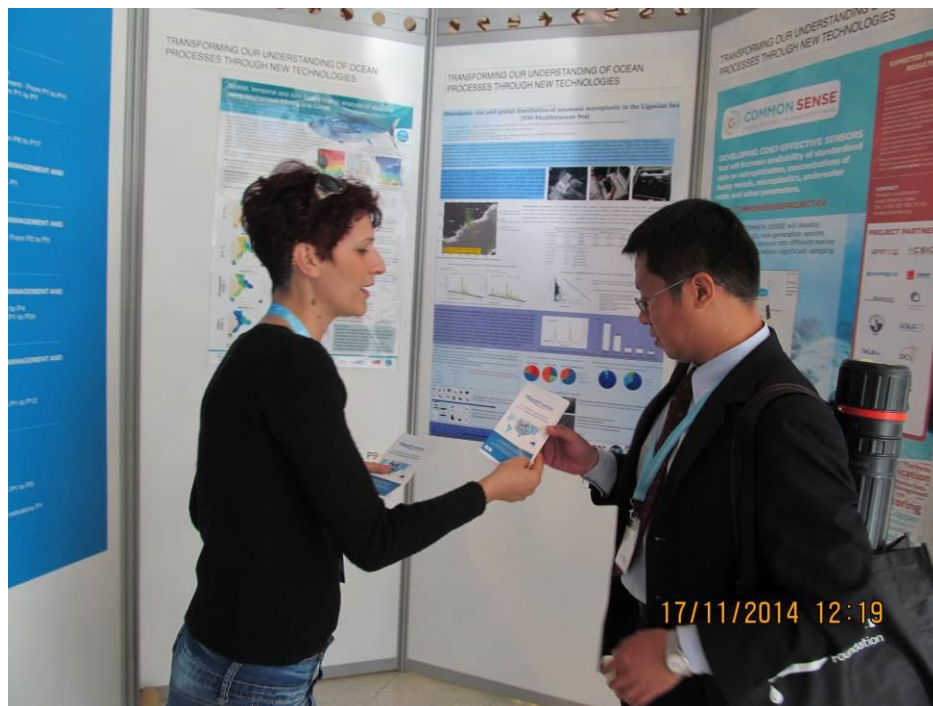

The 2nd International Ocean Research Conference (IORC) was an opportunity for the scientific community to come together to plan the coming decade of international collaboration in marine science and technology, with a view to improving ocean governance.

Members of the MareFrame project team (Dr. Mariana Golumbeanu and EAG member Prof. Fokion Vosniakos) participated in the scientific sessions and disseminated the MareFrame poster and leaflets.
